

K-2 Math Resource Icons

Chunky, friendly spot icons a 5- to 7-year-old can read at a glance. Single-color and built on *currentColor*, so every glyph works in any MCP brand color or in black for printable worksheets.

laptop

centers

whole class

practice

Grouping & stations

A teacher-table marker for the progress tracker, plus five shape tokens to tag work groups — distinguishable by silhouette, so they stay accessible without relying on color or theme.

teacher table

group · circle

group · square

group · triangle

group · diamond

group · hexagon

Instructional routines

One icon per warm-up routine, so students recognize the day's thinking move.
